

International Visibility of Biobanks from Germany

The TMF Fosters International Visibility of Biobanking in Germany by Establishing a National Biobank Registry with an Integrated User Portal

	<h3>Biobank-ID</h3> <ul style="list-style-type: none"> Population-based Disease-oriented
	<h3>Material group</h3> <ul style="list-style-type: none"> Serum, DNA, Cells -20 °C , -80 °C, N₂
	<h3>„Consent“</h3> <ul style="list-style-type: none"> Scope Specific purpose
	<h3>Phenotype</h3> <ul style="list-style-type: none"> ICD10 / MIM / MESH Method
	<h3>Optional Info</h3> <ul style="list-style-type: none"> Age groups Sex Number of samples

The screenshot shows the 'Deutsches Biobanken-Register' website. The main page features a navigation bar with 'Biobanken', 'Home', 'User-Portal', 'Projektportal', and 'Über uns'. Below this is a search and filter section with buttons for 'Browse', 'Search', and 'My biobank'. A table lists various biobanks with columns for 'Wählen', 'Details', 'Biobank', 'Ort', and 'Website'. A 'Material Information' form is overlaid on the right, containing fields for 'Internal Material Key', 'Material', 'Storage Temperature', 'Aliquots', 'Minimum number of aliquots / blocks per person', 'SPREC', 'Storage Format', and 'Select findings'.

Screenshots of some registered biobanks. Note, the input form for materials is prepared for future quality measures, e. g. the „**Standard Preanalytical Coding for Biospecimens**“ - SPREC

User Portal

„Regulations & Ethics“

- Data Protection
- Informed Consent & Privacy
- Material Transfer Agreement
- Biobanking Policy

„Quality Control“

- SOPs
- SPREC
- Sample Handling
- Sample Sharing

„Public Relations“

- Information for Donors
- Publications
- Announcements
- News & Views

„IT“

- LIMS
- Automatisierung
- Anonymization
- Standardisation
